

Bearings For Severe Service Environments

EDT bearing products keep production running crisply

Grease-less bearing products you can rely on 24/7

- Designed for cleanability
- Unaffected by wash-down
- Eliminate re-greasing
- Avoid process contamination
- More up-time without catastrophic bearing failure
- Predictable longevity and maintenance scheduling

Fryer Bearing

Peeler Bearing

Poly-Round® Plus

Conveyor Bearing

Block Bearing

Ishida Links

On sprocket-driven modular plastic and wire belt conveyors, **EDT GUARANTEES** the NA Poly-Round® bearing to last 1 year, or EDT will replace it with the bearing of your choice.

Poly-Round® Plus inserts allow easy retrofit of ball bearings into most brands of housings
